ANTI-AGING
INGREDIENT MATRIX

THE SECRET IS IN THE FORMULA

COLLAGEN

Collagen is responsible for skin strength and elasticity, and its degradation leads to wrinkles that accompany aging.

RETINOL

Retinol is one of the best-known skincare ingredients on the market for diminishing fine lines and wrinkles.

SQUALANE

Squalene in skincare can reduce wrinkles, eliminate scars, reverse UV damage, lighten freckles and erase skin pigmentation, all while fighting free radicals.

SOY PROTEIN

Soy protein when used in skincare products increases the ability of the skin to hold moisture and provides a smoothing effect for minimizing roughness and wrinkles.

SODIUM HYALURONATE

Sodium hyaluronate attracts moisture in skin cells. This reduces dryness and flaking by increasing skin hydration.

CAFFEINE

Caffeine helps reduce inflammation and puffiness. It also tightens and brightens the skin, reducing wrinkles and visibly smoothing away cellulite.
