

**BURN FAT  
FOR ENERGY**

**CHOOSE THE BEST FUEL FOR YOU!**

TruRise KetoSurge™ Fuel is the purest, most potent and effective exogenous ketone supplement available on the market today. Our ketones shift your body energy source from glucose to a more stable and robust energy source, making it easier to achieve your best results.

**ELEVATE YOUR FAT LOSS AND ENERGY WITH BERRY BLAZE KETOSURGE™ FUEL!**

**KETOSURGE™ FUEL BERRY BLAZE (CAFFEINE)** (Single Packs & 30 Serving Canisters)

TruRise KetoSurge™ Fuel is a breakthrough wellness product™ that is designed to help you live at a higher level. Use it to elevate your fat loss while you enjoy more energy, enhanced focus and a better quality of life. It is a delicious way to help you look and feel your best. This revolutionary product is powered by the TruRise KetoSurge™ proprietary blend of Beta-Hydroxybutyrate (BHB), Betaine Anhydrous, and Caffeine Anhydrous to help your body use stored fat for energy! Fat has more than double the energy per gram than sugar and carbohydrates, so drinking KetoSurge™ Fuel will help lift your energy levels, stabilize your sugar cravings and reduce your appetite.†

**Discover the Advantages of TruRise KetoSurge™ Fuel**

TruRise KetoSurge™ Fuel delivers a premium dose of BHB carbohydrate-free fuel. If you're looking to burn fat or seeking to increase your energy levels, you'll love the benefits of TruRise KetoSurge™ Fuel. It's the perfect product for busy professionals, trainers, and on-the-go moms and dads who want to look and feel their best.†

## How our TruRise KetoSurge™ Fuel is different than other Exogenous Ketone Supplements:

TruRise KetoSurge™ Fuel is the purest, most potent and effective exogenous ketone supplement available on the market today. Our ketones help shift your body energy source from glucose to fat, a more stable and robust energy source, making it easier to achieve your best results.

The main ingredient in TruRise KetoSurge™ Fuel is Beta-Hydroxybutyrate (BHB) which is supplied by KetoVantage based on a licensing agreement. The BHB has been verified by Informed-Choice.org and Informed-Sports.com, and is also NSF GMP Certified, ISO 9001, ISO 22000, Kosher and Halal certified, so you know you are getting the most premium keto product on the market.

Each serving of TruRise KetoSurge™ Fuel contains the full therapeutic dose of BHB and also a full therapeutic dose of Betaine Anhydrous to help support liver functions.

Kosher & Halal • Suitable for Vegan/Vegetarian • Suitable for Athletes • Non-GMO • Non-Allergen

### Beta-Hydroxybutyrate (BHB)

Beta-Hydroxybutyrate (BHB) is a ketone body that is produced when free fatty acids are broken down in the liver. The other two types of ketone bodies are acetoacetate (AcAc) and acetone. Ketones provide pure energy to fuel the human brain and other tissues. The liver is always producing ketones to some small degree and they are always present in the bloodstream. Under normal dietary conditions, ketones are too low to be of any significance. A very low carbohydrate diet, a ketogenic diet and exogenous ketone supplements like TruRise KetoSurge™ line of products, will help you increase the amount of ketones in your body. Exogenous ketone supplements may provide a multitude of benefits. These include athletic performance enhancement, more efficient weight loss, cognitive improvement, anti-inflammatory properties and many more.<sup>†</sup>

Consuming a supplement like TruRise KetoSurge™ Fuel with exogenous ketones allows you to experience ketosis within hours so you can enjoy all the benefits of elevated blood ketone levels without having to follow a restricted ketogenic diet. TruRise KetoSurge™ Fuel makes realizing your true potential easy! Using TruRise KetoSurge™ Fuel will help you live life at a higher level.<sup>†</sup>

### Caffeine Anhydrous:

Caffeine Anhydrous provides you with a long-lasting, extreme energy boost coupled with enhanced focus and alertness. Caffeine will also provide increased fat oxidation leading to a revved-up metabolism and fatty tissue stimulation.<sup>†</sup>

### Betaine Anhydrous:

Betaine Anhydrous, also known as Trimethylglycine (TMG), is a chemical that occurs naturally in the body. It is involved in liver function, cellular reproduction, and helps to produce carnitine. It also helps the body metabolize an amino acid called homocysteine, a chemical involved in the normal function of many different parts of the body including blood, bones, eye, heart, nerves and the brain. Betaine Anhydrous appears to have a multitude of benefits for athletes and gym-goers alike. It has been gaining reputation as a pre-workout performance enhancer (for power and energy boosts) and also as an important supplement for fat loss regimens.<sup>†</sup>
